

## Post Graduate Diploma Program in Clinical Research

**Duration: 37 weeks**

**Hours: 740**

### 2010 Course Calendar

|   | Title   | Course Code | Date (Mon.-Thurs) | Time          | Comment    | Fee  |
|---|---|-------------|-------------------|---------------|------------|------|
| <b>Phase I* – Mandatory – Exemptions provided if completed previously</b> |   |             |                   |               |            |      |
| 1   | Anatomy & Physiology  | AP01        | Sep20-30          | 1:30-3:30PM   | Two Weeks  | 200  |
| 2   | Pathology   | PT01        | Oct 4-14          | 1:30-3:30PM   | Two Weeks  | 200  |
| 3   | Molecular Biology   | MB01        | Oct 18-21         | 1:30-3:30PM   | One Week   | 200  |
| 4   | Biotechnology   | BT01        | Oct 25-28         | 1:30-3:30PM   | One Week   | 200  |
| 5   | Pharmacology Fundamentals and Drugs, Biopharmaceuticals and Medical Devices                                   | DBMD02      | Nov 1-11          | 1:30-3:30PM   | Two Weeks  | 200  |
| <b>Phase II</b>   |   |             |                   |               |            |      |
| 7a  | Introduction to Clinical Research**   | INTRO01     | Monthly           | 1:30-3:30 PM  | One Week   | 600  |
| 6   | Pharmaceutical Product Development  | PPD01       | May 10-13         | 8:30am-1:30PM | One Week   | 600  |
| 7   | Good Clinical Practices (GCP/ICH) Regulations, Guidelines and Standards Governing Clinical Research Worldwide | REG01       | May 17- June 10   | 8:30am-1:30PM | Four Weeks | 3200 |
| 8   | Clinical Trial Development Protocols and Investigator Brochures Phases I-IV                                   | DEV01       | June 14- June 24  | 8:30am-1:30PM | Two Weeks  | 1600 |
| 9   | Organization of Clinical Trials   | OCT01       | June 28-July 1    | 8:30am-1:30PM | One Week   | 550  |
| 10  | Cost Estimate and Resource Allocation in Clinical Trials  | COST01      | July 5-8          | 8:30am-1:30PM | One Week   | 400  |
| 11  | Monitoring Clinical Trials I  | MCT01       | July 12-22        | 8:30am-1:30PM | Two Weeks  | 1600 |

|                  |  |         |                       |               |               |      |
|------------------|--|---------|-----------------------|---------------|---------------|------|
| 12               | Monitoring and Information Technology                                  | MIT01   | August 30-September 2 | 8:30am-1:30PM | One Week      | 400  |
| 13               | SOP Writing  | MW01    |                       | 9:00am-3:00PM | Three Fridays | 300  |
| <b>Phase III</b> |  |         |                       |               |               |      |
| 14               | Data Acquisition (CRF/e-data)  | DA01    | August 16-19          | 8:30am-1:30PM | One Week      | 400  |
| 15               | Data Management and Data Resolution                                    | DM01    | August 23-26          | 8:30am-1:30PM | One Week      | 400  |
| 16               | Clinical Trial Supplies: Planning, Handling and Disposition            | CTS01   | Sep 6-9               | 8:30am-1:30PM | One Week      | 300  |
| 17               | Project management and Supervision                                     | PM01    | Sep 13-16             | 8:30am-1:30PM | One Week      | 350  |
| 18               | Laboratory and other trial specific tests: Interpretation and Analysis | LAB01   | April 26-29           | 8:30am-1:30PM | One Week      | 400  |
| 19               | Drugs and Therapeutics; Future Developments                            | DDD01   | July 26-29            | 8:30am-1:30PM | One Week      | 350  |
| 20               | Interpersonal and Negotiation Skills                                   | IPS01   | April 26-29           | 6:30-9:30 PM  | One Week      | 300  |
| 21               | Monitoring Clinical Trials II  | MCTII01 | April 12-22           | 8:30am-1:30PM | Two Weeks     | 1000 |
| 22               | Biostatistical Methods for clinical Research                           | IT01    | May 3-6               | 1:30-3:30PM   | One Week      | 600  |
| 23               | Auditing clinical Trials/GCP Audits                                    | ACTII   | May 3-6               | 8:30am-1:30PM | One Week      | 700  |
| 24               | CR Project***  | CRProj  | May 10-June 24        | 8:30am-1:30PM | Eight Weeks   | 500  |

\*Phase I must be completed before obtaining the CR Diploma, courses will be provided at least once a year

\*\*Mandatory for all courses phase II and III, will be provided once month as needed to provide for access to the program

\*\*\* Can only be started once all courses have been completed satisfactorily.

Summer Holidays August 2-12
